# RPZ-OPTO SL DATA SHEET

## RPZ-OPTO INDUSTRIAL PALLETIZING

THE RPZ-OPTO palletizing solution was born out of a need for manufacturers that are challenged with limited space. Configurable pallet handling modules eliminate the need for frequent operator intervention, reducing labor costs and increasing productivity rates.

### KEY FEATURES

- Modular Design
- Flexible Tooling Options
- Easy-To-Use Dashboard
- Data Logging
- Integrated Tier Sheet Handling
- Stretch Wrapper Integration Available

### TECHNICAL SPECIFICATIONS

<b>Power Requirement</b>	480 VAC
<b>Empty Pallet Queue</b>	15 Pallets*
<b>Air Requirement</b>	90 PSI Minimum
<b>Stretch Wrap Integration</b>	Available Upon Request
<b>Recipe Building</b>	Full Container Height
<b>Maximum Payload</b>	180kg, less EoAT
<b>Maximum Pick Rate</b>	Up to 12 Cycles per Minute
<b>Maximum Pallet Height</b>	Full Container Height
<b>Pallet Formats</b>	GMA, CHEP, PECO
<b>Pallet Conveyance</b>	MDR, Drag Chain
<b>Robot Platform</b>	Fanuc or Kawasaki

\*dependent on OPTO Model
